

SHAPING FUTURE CARE: SOUTH WEST

Technology, Time, People and Planet:

Thursday 10th October 2024 1000-1615

Taunton Conference Centre and Rugby Club

OBJECTIVE

Demonstrating where capacity can be found within health and care systems to achieve strategic objectives and meet operational challenges: releasing time to care, and time to be more caring

Discover where technologies are saving 1000's of hours of clinical and care time, and building a greener environment along with financial savings

Developing regional connections to move toward system balance and frontline line Joy@Work in the South West

Decarbonising transport within health and social care: Avoid-Shift-Improve

Conference outputs: accelerating change in the SW through awareness and connection

WHY PARTICIPATE?

- Discover the art of the possible – what's being done, where it's being done, who can help do it
 - Learn what's available to support organisations, departments, teams in delivering strategic objectives
 - Connect with others pursuing integration initiatives
 - Conference is designed to have a legacy of learning and connection extending beyond the day
 - Identifying other participants in 'integration' - inclusive and extended Integrated Care Systems
-

AGENDA

0900 Registration, coffee & tea and breakfast rolls in the Experience Zone

1000 Welcome address and context setting – the challenge and the hope

What's possible

1020 Collaboration that creates care: uncovering miles of time –

Mark Russell-Smith – Director of International Operations, AI Dimension (formerly Procomp Solutions)

data and the emerging evidence base of integrated working from UK and Finland – reducing costs, creating capacity, minimizing carbon footprint

Where change is happening

1050 Ethical Home Care Transformation: the Wigan story:

Lindy Wardle – Service Manager, Provider Management & Market Development Wigan Council

What can make it happen / why not

Shaping Future Care: South West

1110 Q&A

Clarification questions and observations on the morning presentations

1125 Advancing integrated health, care and transport – the Wiltshire story:

Kate Blackburn Director of Public Health, Wiltshire Council

Samantha Howell Director of Highways and Transport, Wiltshire Council

1145 Roundtable discussions

Discussion/Reflections – what does this mean, could it mean, what would it take to happen – facilitated session, provocations for connected working and future steps

1215 Lunch & Networking in the Experience Zone (Augmented and Virtual Reality Technologies)

1315 Feedback of Round Table Discussions

Capturing and sharing the outputs of the roundtables and building the networks resource

What's possible

1345 Integrated Neighbourhood Teams: AI for EI

Dr Matthew Dolman NHS South West Clinical Advisor, Digital Neighbourhood Programme

Artificial intelligence (AI) for early intervention (EI) – The SW programme for upstream integrated community-based care avoiding admissions and predicting demand for social care support

Where change is happening

1405 Actions speak louder than words: creating time and space

Nicola Dillon-Government Client Director, Microsoft

Microsoft Co-pilot – getting more out of meetings and care plans

1425 Market place

Meeting new ways of working – AI Dimension, BRAVE, Insight, Microsoft, Meta – structured time together to be introduced to new possibilities and feedback on what could be/what's needed to make it happen, what connections would support it

1525 Lord Alan of Hallam – Health and care policy lead (Liberal Democrats) House of Lords

Reflections on implications for national policy

1550 Round up and reflections

- What have I learned
- Who do I need to connect with
- What's my next step
- What does this support
- Why wouldn't we do this
- What's my commitment note/planet promise

What would you like / what would be of support to have you implement some of these ideas

1615 Close and networking opportunity

Future Care Lab is a series of collaborative events to build connections. They are designed to be informing and action orientated enabling participants to discover, develop and deliver initiatives leading to sustainable systems.

Coordinated and hosted by:

John Bryant Director of Generative Relationships and Integrated Care – Learning & Development Centre

Peter Lacey Director – The Whole Systems Partnership

Prof Peter Jones Professor of Transport and Sustainable Development - Centre for Transport Studies UCL
