

Level 7 Advanced Clinical Practitioner Degree Apprenticeship MSc Advanced Clinical Practice

Upskill your employees through the Apprenticeship Levy funded Advanced Clinical Practitioner Degree Apprenticeship, and they will be able to transform your service delivery and better meet local health needs by providing enhanced capacity, capability, productivity and efficiency.

The programme has been designed to enable the development of the skills and expertise required to respond to the challenges facing our modern-day health service. It will include theoretical concepts and provide practical skills, affording the opportunity to develop existing professional roles, while underpinning the core requirements of the four pillars of Advanced Clinical Practice:

- 1. Clinical Practice**
- 2. Leadership and Management**
- 3. Education**
- 4. Research**

Why Exeter?

- A contemporary MSc from a Russell Group university
- Blended delivery using a combination of taught and online platforms, to allow individual and group working in any location
- A programme designed by a team of leading academics and health practitioners to optimise the apprentice's time away from the workplace.

Topics covered

- Advanced clinical practice
- Education
- Research
- Leadership and management
- Clinical skill development
- Prescribing (optional)
- Service improvement
- Professional development

Qualifications available

- MSc Advanced Clinical Practice

Entry requirements

Individual employers will set the selection criteria for their apprenticeships in discussion with the University.

A minimum 2:2 Honours degree (or for older qualifications a Professional Diploma) in a healthcare related discipline. Relevant clinical experience or previous postgraduate qualifications will also be considered as part of the admissions process.

Registration with the appropriate statutory regulatory body for the profession (such as the HCPC or NMC) and two years post registration clinical experience.

Evidence of English and Maths attainment at Level 2 will be required prior to the End Point Assessment.
