

Roadmap Clinical Supervisor Courses

Do you want to supervise and develop the existing and future Primary Care workforce?

The HEE [Roadmap](#) provides a clear educational pathway from undergraduate to advanced practice for clinicians wishing to pursue a career in primary care.

HEE are running 2-day courses from April onwards to train roadmap supervisors to verify clinicians through the portfolio route described in the Roadmap. On completion you will become a recognised HEE Roadmap supervisor and be added to our regional and national supervisor directory.

To be eligible for the training course, you must be currently working in a Primary Care service in the South West of England (either NHS or external partners) as one of the following:

- GP or a medical doctor (existing GP trainers only require an optional half day top-up)
- Nurse/AHP holding a full postgraduate MSc in their area of specialist interest
- Verified FCP on HEE directory

Courses take a maximum of 14 places and **you must be able to attend both days** to complete the training to be a recognised Roadmap supervisor.

For further information and dates contact your local Training Hub.

To register your interest please follow this link: <http://bit.ly/3sTfA2r>

This training course is free, but you will need to attend in your own time
